

# Intersection of Clinical and Administrative Data Task Force

Sheryl Turney, Co-chair

Alix Goss, Co-chair

April 07, 2020

---

The Office of the National Coordinator for  
Health Information Technology

# Today's Agenda:

- Roll Call and Welcome
- Summary and Action Plan
- Edit Prior Authorization (PA) Info Table
- Discussion: Guiding Principles and Ideal State
- Next Steps
- Public Comment

**Vision**: Support the convergence of clinical and administrative data to improve data interoperability to support clinical care, reduce burden and improve efficiency—furthering implementation of “record once and reuse.”

**Overarching Charge**: Produce information and considerations related to the merging of clinical and administrative data, its transport structures, rules and protections, for electronic prior authorizations to support work underway, or yet to be initiated, to achieve the vision.

# Summary and Action Plan

## Last Meeting

- We took a deep dive into the Prior Authorization (PA) Info table, considering the correct data categories for the use case
- Homework was to fill in the table and add comments

## Approach for Today's Work

- See how far we've come, try to complete this table as fully as possible
- Define guiding principles for fully mapping this and other use cases
- Discuss what we want our end-product Ideal State to look like

A large, abstract graphic composed of overlapping, semi-transparent geometric shapes (triangles, hexagons, and squares) in various shades of blue, green, yellow, and orange. The shapes are arranged in a way that creates a sense of depth and movement, with some appearing to be layered on top of others. The overall effect is a complex, multi-colored pattern that fills the left side of the slide.

# The PA Info Table

## Info Table Goals for Today

- Review what came from the homework
- Discuss completeness, review the exercise
- Determine next phase

**[show live table]**

A large, abstract graphic on the left side of the slide, composed of numerous overlapping triangles and polygons in various shades of blue, green, yellow, and orange. The shapes are arranged in a way that creates a sense of depth and movement, resembling a complex, multi-dimensional structure.

# Discussion: Guiding Principles and Ideal State

# Guiding Principles and Ideal State

- What are the guiding principles for our work?
  - Patient at the center
  - Definition of “Delight”?
  - Levels of detail needed?
- What is the ideal state for Prior Authorization?
  - What needs to happen to get us there?
  - How does that generalize to connecting administrative and clinical data overall?

# Next Steps

## Next Steps

- What's next for the Info Table:
  - Continue 'homework' approach?
  - What are the challenges and possible solutions?
  
- Additional Use Cases (Pharmacy, Medical Service, Hospital Service, Specialty):
  - Are we ready to start?
  - Should we start with the table or a workflow?
