

NAACCR

PRESENTATION TO PUBLIC HEALTH
DATA SYSTEMS TASK FORCE

SEPTEMBER 28, 2022

STEPHANIE M. HILL, MPH, CTR

ASSOCIATE DIRECTOR, NAACCR

CURRENT STATE OF AMBULATORY REPORTING

- Highly variable between states
- Resource intensive
- Redundant

CURRENT GAPS

- Unstructured data
- Missing key information
- Transmission mechanism
- Limited data exchange
- Lacking incentives

RECOMMENDATIONS

- Use machine-readable structured data items based on existing standards
- Use an existing transmission mechanism
- Define core data items
- Define specialty-specific requirements

THANK YOU
