

The New Roaring 20's: Discussing the Federal Role in Advancing Health IT

2020-2025 Federal Health IT Strategic Plan

The Office of the National Coordinator for
Health Information Technology

The Time is Right to Revisit our Federal Health IT Strategy

The HITECH Act requires ONC, in consultation with other appropriate federal agencies and the private sector, to update the Federal Health IT Strategic Plan.

Technology in the health care environment and market is constantly evolving.

21st Century Cures Act sets in motion the need to move towards improved access, exchange, and use of electronic health information.

Federal agencies' health priorities increasingly rely on health IT and the access, exchange, and use of electronic health information.

Nuts and Bolts of the Plan

Strategic Plan Framework

Promote Health and Wellness

GOAL
1

**Enhance the Delivery and
Experience of Care**

GOAL
2

**Build a Secure, Data-Driven Ecosystem
to Accelerate Research and Innovation**

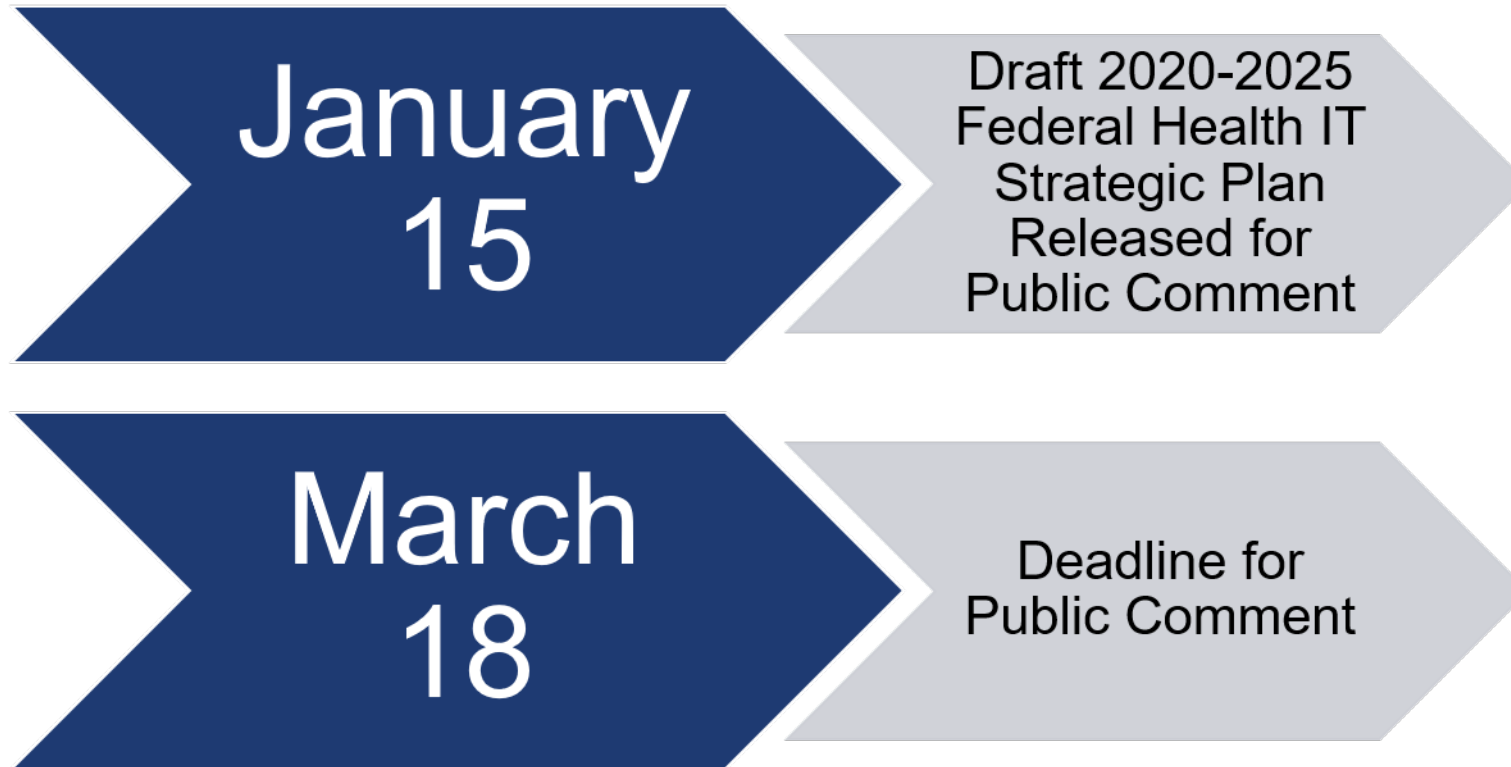

GOAL
3

GOAL
4

**Connect Healthcare
and Health Data
through an
Interoperable Health
IT Infrastructure**
